

## CREDITS

*There's one guy who deserves most of the credit. He's gone.  
He didn't care about getting any credit when he was alive.  
And he wouldn't care what I did with his stuff.  
I know that because he told me that himself [the one time I spoke to him in 1973](#).*

*With one exception, I didn't have a hand in writing any of the music or lyrics on this site.  
They're all ripped off. My impression is that no one involved in their creation really minds.  
(But as Janis said, "Get it while you can".)*

*The tab is mine in the sense that I copied what I heard into finger positions on a guitar and typed it out.  
The licks, leads and riffs were ripped off.*

*If you like my guitar, you used to be able to get one at Resurrection Guitars, Jensen Beach, FL. Look around for them on the web.*

*Sometimes I come home from work, put my feet up, pick up a guitar, click on a GD way, and tab what I hear.  
I don't regard it as work. You do, however, have to like the Grateful Dead and the licks of Jerry Garcia and Bob Weir.*

*"Not everybody likes the Dead, but the people who like the Dead really like the Dead." Jerry*

*If you want to rip this site off, feel free to do so for your personal enjoyment.  
That's why I posted it. Just don't make any money at it. It's bad form and your playing will suffer.*

*Darks ...Still here.*

*PS: There is nothing, the one exception being the songs I wrote, copyrighted on this site. There is no place to put a credit card number.  
There is nothing to buy. There are no ads. There is nothing for sale. There never will be. Take what you need and leave the rest.  
Once I'm done with it, I don't need it anymore. I think I heard or read Jerry say something like that, so give him the credit for the sentiment.*

*PPS: I get a lot of emails asking me to tab out this song or that. I'd like to tab everything, but it's just not practical 'cause I have another life that keeps me pretty busy. Basically, I tab out the stuff that interests me – If I hear a cool lick, I want to tab it out. Just try it yourself and you'll be amazed at how easy it gets with a little practice. And with a little practice of what you tab out, you can actually play the tune. Not like the Maestro, of course, but you'll get close to a lot of it.*

*PPPS: In my book, a "tab" is tab: Guitar note positions on a 6-line score. Chords and lyrics are not "tab." But, since I want a handy reference on my iPad for some lyrics and chords to tunes I know anyway, effective 1/1/13 we got some chords and lyrics pages with no "tab." Apologies to you purists who share my view on the subject.*
