3 Chord in E or A

Chorus

It ain't love, it ain't money that makes this world turn
around
When you hit rock bottom you may not be on the ground
Let me tell you something in case you're walking with a
cane. It ain't love, it ain't money, it's the
whiskey that eases the pain

Eve told Adam that she had apples for sale
Adam bought the first one and I bought the last one and
went to
hell. If you're needin' a crutch, don't try to walk with a
cane
It ain't love, it ain't money, it's the
whiskey that eases the pain

Chorus

Well I'll drink doubles and chase my troubles away
And while you're waking up tomorrow I may still be living
today. If you need a crutch don't try to walk with a cane
It ain't love, it ain't money, it's the
whiskey that eases the pain

Chorus

Plus:

I can tell you something in case you're walking with a cane
It ain't love, it ain't money, it's the whiskey that eases the
pain
